

# This is Brief introduction of myself

I'm Jin Cao, a UX / Product design lead in Samsung. I'm pretty interested in your team. I am writing to inquire if you perhaps have the need of a UX/Interaction design team member. I'm looking for a chance of transfer to CA area from Samsung(Texas) >\_<

I currently work at Samsung Standards and 5G Mobility Lab, as a leader, I responsible for leading the innovation design prototype in multiple team. As a designer, I designed some experiments of AR and pattern recognition, including the interaction design of software and hardware related to visual recognition. The software part is human-computer interaction design, and the hardware part is the industrial design of appearance design.

My H1B VISA till 2023/11.

I'm a master student of Industrial design in Rhode island school of design and I have 5 years working experiences in Interaction & UX/UI designer. I think that UX design is a universal design principle, exists in every corner of our lives. User experience is like the user's employment of the products, good product user experience is obvious. I'm fascinated by how interactive, visual & motion staff in the digital world, and brings a better experience to users. MY Motto is :Be patient, keep the high level of personal status and never stop working & learning.

My skill list:

Research & UX: Information architecture, Usability studies (lab-based).

Prototype: Conceptual models with Axure, Sketch, Adobe XD, Principle. InVisionApp, Arduino, Sketches.

UI: Prototyping / front-end development, Visual design with Adobe Suits(including InDesign, Illustrator, Photoshop).

Programming: Html/css, Java, Python, Javascript.
